Professional Summary

Aspiring Software Developer with hands-on experience in Python, Django, and full-stack web development. Strong foundation in backend development, REST APIs, and problem-solving. Built real-world projects in healthcare management and IoT automation. Seeking an entry-level software development role to contribute technical expertise and grow professionally.

Technical Skills

Programming Languages: Python, JavaScript, SQL

Web Technologies: HTML5, CSS3, REST APIs

Frameworks: Django

Tools: Git, GitHub, VS Code

Core Concepts: Backend Development, Database Design, Version Control, API Integration

Projects

MediTrack – Healthcare Management System

Python, Django, SQL, REST APIs

- Developed a healthcare platform for Patients, Doctors, Lab Technicians, and Admins.
- Implemented authentication, appointment scheduling, patient records, and billing workflows.
- Built REST APIs with SQL database integration.
- Designed role-based dashboards for efficient user access and management.

Smart Home Automation System using IoT

IoT

- Built an IoT automation system to control appliances remotely.
- Improved convenience through real-time device connectivity.
- Enhanced user experience with simple mobile-based monitoring interface.

Education

Bachelor of Technology in Information Technology

2025

College of Engineering Roorkee (UTU)

63%

XII (CBSE)

2021

Saraswati Shishu Mandir Senior Sec. School, Gorakhpur

77%

X (CBSE)

2019

Saraswati Shishu Mandir Senior Sec. School, Gorakhpur

70%

Certifications

- Web Development Training Certificate** – Completed training in HTML, CSS, Bootstrap, JavaScript, React. Scored 91%.
- Grammar and Punctuation** – Authorized by University of California, Irvine via Coursera.
- Git and GitHub Fundamentals (Self-Learning)

Additional Strengths

- Strong analytical thinking and debugging skills
- Quick learner with adaptability to new technologies
- Good communication and teamwork abilities
- Passionate about software engineering and backend systems
